Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments filed 06/26/2007 have been fully considered but they are not persuasive.

Claims 1-3, 5-12, 14, 17-20 are now pending. Claims 4, 13, 15, 16, and 18 are cancelled. Claims 1, 5, 10 are amended.

In the arguments, Applicant generally states "The structure that the examiner alleges meets the deoiler limitations in either of the prior art references to Thebert and Giersdorf, et al. are simply rotating members without a casing." This statement is not agreed with because both, Thebert and Giersdorf, have casings surrounding impellers.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, 7-9, 15, 19, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Giersdorf et al. (5,114,446).

In figures 1-5, Giersdorf et al. teach a deoiler 16 capable of communicating with a source of air contaminated with oil, comprising: at least one separator 20,22 for separating the oil from the air; and a source of suction including a compressor for

compressing air, said compressor including a rotor (See figure 2), and a casing 34 surrounding said rotor for reducing pressure at the source of the contaminated air.

Claims 1-3, 5-7, 14, 19, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Thebert (4,683,714).

In figures 1-2c, Thebert teaches a deoiler capable of communicating with a source of air contaminated with oil, comprising: at least one separator 118 for separating the oil from the air; and a source of suction including a compressor for compressing air, said compressor including a rotor 102 and a casing 78 surrounding said rotor for reducing pressure at the source of the contaminated air.

Allowable Subject Matter

Claims 10-12, and 17 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3745

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
